“ We never took a chance to post a memory because we had too many. I'm thankful for our friendship especially with the boys. We made so many memories during our short time together. We loved u so much especially spending the Holidays together. You will forever be in hearts and think of our memories fondly

Every time I talked to him he'd tell me he loved me when he was leaving. He became another grandson in the short time we knew each other. I'll always be thankful he came wanting to be a part of Cambree's family. Gonna miss him so much ❤️

*Thank you for accepting and loving my boy. I remember the day he told me that he took the boys to meet you. He was so happy and I told him how proud he made me by doing that. ❤️*
