“ Dear Genie, Kristin and Erin,
We were very saddened to hear of the passing of your husband and Daddy.
You are in our prayers and thoughts as you walk through the the loss of your close friend and dad. May you be comforted by the great memories and love that he had for you.
Kristin, it was so nice getting to know you last summer and we hope that we some day may get to meet Erin and catch up with you Genie.
With love, Mike (cousin) Kim, Kyle, Evan and Michaela

“ I am so sorry for your loss. Words can never provide the comfort that they are meant to but know that your family is in my prayers during this time!

“ It never occurred to me that we'd never meet again 15 years ago. I always missed you and your raspy voice and deeply weird sense of humor. The wonderful smells when you cooked and whatever dogs in residence meandering about. Your obvious enjoyment and love of Genie, Kris, and Erin. I have long forgiven you for trying to electrocute me with your toy trains when I was 7. That's when I discovered Mom liked you best. She never even noticed my hair standing on end while comforting you for being startled by the sparks. So many memories all tucked away, for now, goodbye again. Kathy
